

OUR MISSION

Make information simple and accessible, and investments - reliable and smart.

MARKET PROBLEMS

- ❗ The lack of full-stack solutions for cryptoasset management.
- ❗ The lack of structured information on actual situation in blockchain projects.
- ❗ The lack of tools for deep fundamental analysis of projects.
- ❗ Most of the projects are not developed in accordance with the stated goals.

SOLUTIONS

- ✔ Building a decentralized crypto-finance ecosystem for smart investing and asset management;
- ✔ Providing the community with complete, relevant, and unbiased information on each asset of interest;
- ✔ Building the community motivated to independently conduct research and update the information on assets and teams behind them;
- ✔ Enabling token teams to publish current information on their activities on a single platform with no need to use dozens of different communication channels;
- ✔ Creating an algorithmic fund on the basis of deep fundamental analysis.

LAUNCHED PRODUCTS

STIPS20 Index
Professional cryptocurrency index

MVP

STIPS | Oculus
First decentralized trading, analytics and management platform

Goal of Stips|Oculus is to build an easy-to-use, functional and decentralized analytics platform to get together all players of cryptocurrency market for highly efficient investing

Gamification - a characteristic feature of the platform will be its gamification system - the process of using game thinking and game dynamics in order to attract users and consumers, enhance their involvement in solving applied problems, product and service usage. With the help of this process users will be involved in transfer of data on analyzed projects and will get tokens, bonuses, ratings, etc.

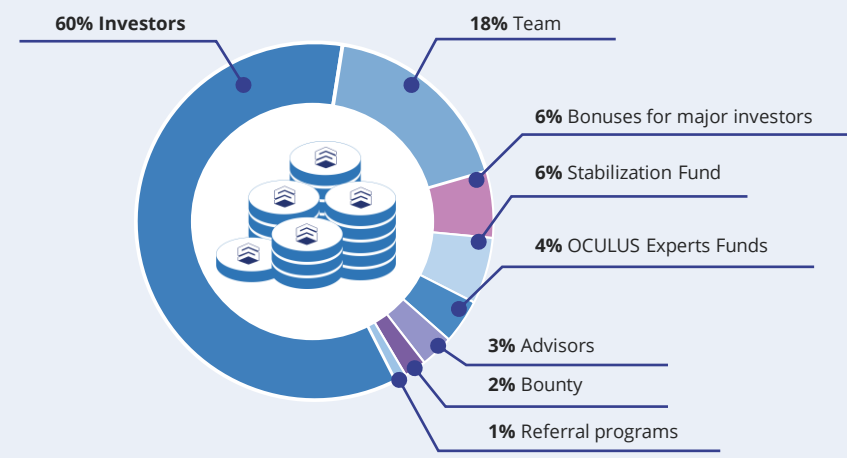

STIPS | Smart Fund
Decentralized solution for your investments

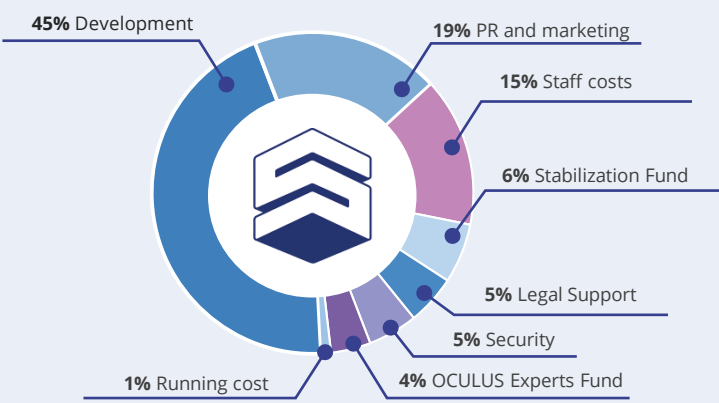

The fund is an important part of Oculus platform. Significant part of the platform features is focused on smart-investing and gives users access to the information so that they could make informed decisions about cryptoassets.
